Directors' Report

The directors present their annual report and the audited consolidated financial statements of Ashgrove Farm Solutions Limited ("the Group") for the year ended 30 June 2025.

Principal activity. The Group designs and supplies natural-capital management software to agricultural and land-management customers, trading under the FarmTech SOIL, FarmTech TERRAIN and FarmTech ERA product lines.

Business review. Turnover for the year increased to €1,121,568 (FY24: €922,345), a 21.6% increase, driven by growth in the Enterprise channel. Gross margin improved to 77.5% (FY24: 62.8%) reflecting a higher mix of software revenue.

Directors' Report (continued)

The Group continued to invest ahead of revenue during the year, and recorded an operating loss of €849,151 (FY24: €1,515,177). The directors consider this consistent with the Group's growth-stage strategy and note the improving trend in gross margin and reducing loss.

Subsequent to the year end, the Group completed a reorganisation and direct listing on Euronext Access+ Dublin under the name FarmTech (see note 18 to the post-listing accounts and the Information Document dated December 2025).

Directors' Report (continued)

Going concern. The directors have prepared cash flow forecasts covering a period of at least twelve months from the date of approval of these financial statements, and are satisfied that the Group has adequate resources following the post year-end listing and equity raise to continue in operation.

Key risks. Customer concentration in the Enterprise channel, reliance on a small number of key technical staff, and foreign-exchange exposure on the Group's UK and EU customer base are the principal risks monitored by the board.

Statement of Directors' Responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable Irish law and accounting standards (FRS 102).

In preparing these financial statements the directors are required to select suitable accounting policies and apply them consistently, make judgements and estimates that are reasonable, and prepare the financial statements on the going concern basis unless it is inappropriate to do so.

Independent Auditor's Report

Opinion. We have audited the financial statements of Ashgrove Farm Solutions Limited for the year ended 30 June 2025. In our opinion the financial statements give a true and fair view of the state of the Group's affairs as at 30 June 2025 and of its loss for the year then ended.

Basis for opinion. We conducted our audit in accordance with International Standards on Auditing (Ireland). Our responsibilities are described below.

Independent Auditor's Report (continued)

Material uncertainty relating to going concern. We draw attention to the going concern note, which describes that the Group is dependent on the continued support of its shareholders and, post year end, on the proceeds of its direct listing. Our opinion is not modified in respect of this matter.

Other information. The other information comprises the Directors' Report. Our opinion does not cover the other information.
