March 2026

Agenda

1. Investment highlights
2. Company overview
3. Products
4. Fundraising history
5. Market opportunity
6. FY25 KPIs
7. FarmTech 2030 targets

Investment highlights

Listed natural-capital management software business on Euronext Access+ Dublin (FRMT).

FY25 revenue of €1,121,568, up 21.6% year on year, with gross margin expanding to 77.5%.

Published FarmTech 2030 targets: revenue CAGR of at least 50% and EBITDA-positive during FY2028.

Company overview

FarmTech was formed from the reorganisation of Ashgrove Farm Solutions Limited and listed on Euronext Access+ Dublin on 22 December 2025.

The Company acquired Terravue Ltd, a UK geospatial AI business, in HY26.

Products

FarmTech SOIL - soil health analytics for agricultural customers.

FarmTech TERRAIN - land-use planning software.

FarmTech ERA - emissions reporting and assurance.

Fundraising history

Round	Year	Amount (approx.)
Seed / private placement	2023	€1.07m
Series A private placement	2024	€1.47m
Equity raise alongside Admission	2025	€1.53m

Market opportunity

The directors believe demand for natural-capital reporting software is growing across the Company's core European markets, driven by regulatory and voluntary sustainability reporting requirements.

Market opportunity (continued)

The Company competes with a fragmented set of specialist point-solution vendors and believes its integrated SOIL/TERRAIN/ERA suite is a differentiator for Enterprise customers.

FY25 KPIs - Average Enterprise contract value

Product	Average Enterprise ACV (EUR)
FarmTech SOIL	16,494
FarmTech TERRAIN	28,842
FarmTech ERA	78,926

FY25 KPIs - geography and channel mix

~71% of FY25 revenue from Ireland, ~29% from 11 other jurisdictions.

Channel mix: Enterprise 62%, Independent 11%, R&D 27%.

FarmTech 2030 targets: revenue CAGR ≥50%, EBITDA-positive during FY2028, >100 Enterprise customers, Enterprise ACV >€67,000, Ireland <50% of revenue.
